Bitnymex is the Most Secure & Leading Cryptocurrency Trading Platform & Bitcoin

Exchange. Our founding members are young and enthusiastic adopters of

cryptocurrencies, all of whom graduated from IIT. Before we started Bitnymex, we

have created multiple products that have helped consumers in commerce decision

making. In late 2017, we decided to start a crypto-currency exchange. To give

people a smooth entry into the world of crypto, we gave importance to ease of use,

security, and customer support right from the beginning. In just a few months, our

focus proved right.

What We Believe

- Cryptocurrencies and the underlying blockchain technology are the future of

money.

- Open, transparent and clear communication with our users.

- Simple, aesthetic, and easy to use interface.

- Crypto-currencies must be accessible to everyone. Never for just a select few.

- We support not just established currencies like Bitcoin, but also niche altcoins with

real benefits.

- Responsive and immediate customer support.
