out of lifehe idea is to grow herbs and vegetables that are both edible and aesthetically pleasing — and will also hold up well in an arrangement. For example, a head of lettuce has a shorter stem and is more difficult to arrange, whereas dino kale can gain a few inches of height as it's growing, which makes it a great filler green in a bouquet. Some of our favorite greens for bouquets are: Kale - The dark green color and hearty leaves make this plant both beautiful and durable, as it won't wilt too guickly. Check out our advice on how to grow kale, a Tower Gardener favohe idea is to grow herbs and vegetables that are both edible and aesthetically pleasing — and will also hold up well in an arrangement.
