The Company  
Philosophy and Values Hempura, launched in early 2017, has quickly become a

leading brand within the UK fuelled by exceeding customer and business page 1 / 2

expectations alike. With a company philosophy of focussing on the whole customer experience, Hempura's attention to detail and quality has set them apart, enabling them to achieve the position in the market they hold today. Every aspect of Hempura is built around trust, safety and compliance, also being registered with the Cannabis Trade Association (CTA). The CTA are the only UK centric trade association for the UK, working with all sectors of the hemp and cannabis industry to promote good practice, provide practical advice and ensure consumers of legal cannabis and hemp products have access to top quality information. The CTA is working in the industry to ensure that common sense prevails and sellers provide products that "say what they are and are what they say" and provide clear concise and, above all, legal labelling, and lab reports. Hempura hope to establish a sustainable business that gains industry recognition and trust from our customers through reliable quality and service.

**Manufactured With EU Industrial Hemp**

Hempura CBD products are manufactured using top grade industrial hemp imported directly from Eastern Europe and then extracted right here in the United Kingdom.

**Products and Manufacturing**

Hempura CBD products are manufactured to the highest standards possible in state-of-the-art laboratories based right here in the UK. All Hempura CBD products are manufactured using supercritical CO2 extraction, plus various other processes such as: decarboxylation, filtration, winterisation and more, depending on the specification of the end product being manufactured at the time. Hempura operate full traceability with batch numbers on every product. This code is linked directly back to a lab report that demonstrates the CBD contents and legality of every product sold.
