With Fresh Relevance, you can tap into real-time customer data to show them the products they are most likely to purchase at this moment in time. Our powerful machine learning engine tracks and analyzes the behavior of each visitor and blends these insights with sophisticated merchandising rules and your business rules. We offers best countdown timer for your websites at affordable prices. It will help display countdown timer for scheduled sale products and a progress bar to make your customers feels the urgency and scarcity. For more details visit our [website today](#).
