

Volksmaster Ltd Bury

3 Millett Street
Bury BL9 0JA
United Kingdom

Phone: 0161 761 3030

Volksmaster Ltd is an independent, professional, specialist VAG servicing centre located in Bury and Oldham, Manchester. Our personalised and professional service means we have thousands of customers who come back to us year after year. Our happy customers know that there is no reason to use the main dealer when there is a top notch, hassle free service available at much lower rates. Our technicians have over 25 years of experience and are waiting to look after your vehicle whether you need a service, an annual MOT or repair. Though we are VAG specialists, Volkswagen, BMW, Audi, Mini, Seat or Škoda, it doesn't matter what vehicle you have, we are happy to see your vehicle arrive in our garage. We can provide a specialist service for owners of vans in our specialised van garage where we can service or repair your vehicle. In addition we provide great maintenance packages for those who own a fleet of cars or vans. Too busy to get to the garage? No problem. We offer a great collect and return service. We collect your vehicle, carry out the service, MOT or repair and then return the vehicle to you at home or at work. It's completely hassle free and it comes back clean inside and out. If you need a courtesy car, we can supply that too. Volksmaster can give you everything you find at a main dealer, but we offer better value by keeping costs low and adding in those little extras that make life easier. Why not book your vehicle in with us today? That's another job done. If you need more information about the services we offer please take a look around our website or give us a call. If you prefer, fill in the short form and we will be happy to send you a quote. We hope to hear from you soon. Here at Volksmasters we understand that the market is more competitive than ever and that our customers want value for money and convenience as well as expertise when it comes to maintaining their vehicles. We have all the latest equipment including diagnostics and full access to the technical databases for Seat, VW and Audi. We can help with any situation and we always keep the customer

front and centre, offering an open and friendly approach to our clients.
