Sneaky Dog Escapes, Southampton's first virtual reality escape rooms, is pushing the boundaries of escape room adventures. Like traditional escape rooms, you'll need to work together to solve puzzles, discover clues and think outside the box. They offer the chance to be at the centre of the action in your own adventure. Using a VR headset, you are transported to a completely different environment with stunning graphics and vast, impressive sets to explore. You and your team will need to work together to solve puzzles and escape! The sets are vast and hugely impressive. This immersive game allows you to move freely around the set, picking up items and even high fiving your friends. Players will live a larger-than-life adventure. An adventure that would be far too dangerous or just impossible to live in real life. Sneaky Dog Escapes comes highly recommended by all who have tried it, with players saying, "it's the most dynamic escape room I've ever experienced...I will definitely be going back."
