

Leading ethical ticketing 

United Kingdom

We believe ticketing should be fair, friendly and social.

Let's be honest, there are dozens of ticketing solutions out there, but our DNA is different. Our values put people first and acknowledge that together we can create positive change in the world. So, as part of our mission, we're committed to helping those in need. As part of this commitment we donate HALF of all booking fees to charity!

Let's challenge the industry. #ethicalTicketing
