At the Furniture Loft, you will find over 40 ranges of quality furniture suitable for every room. Displayed over two floors, with an elevator available for easy access, each range is presented in a carefully-styled room setting. As far as personal taste is concerned, we have something to suit almost everyone. From oak, painted, reclaimed, industrial, vintage and contemporary furniture, it is difficult not to find at least one piece of furniture you love enough to take home. Hoping to make shopping with us a positive and enjoyable experience, we also have pleasant and helpful staff available should you require some help or even just to supply you with a complimentary tea, coffee or glass of wine while you browse. In summary, we are the largest independent furniture store in the Midlands, if not the country. We aim to help you find the perfect item of furniture for your home at the right price.
