Perna & Abracht is a full service law firm helping clients in the areas of Business law, Family law, Divorce, Personal Injury, Estate Planning & Administration, Workman's Compensation and Real Estate.

The firm believes that proper legal representation requires fully understanding a client's legal wants and needs, recognizing that no legal solution fits every client, and fashioning resolutions that fully serve client legal needs while taking into account financial constraints. We also believe that effective legal representation begins with frank and frequent communication with clients, and with the pursuit of pragmatic, real-world solutions to complex problems.
