Welcome to SpiritShack, we are the largest supplier of Ghost Hunting Equipment in the UK. We have helped hundreds of local, national and international ghost hunters with everything from ghost hunting advise to getting them up and running with the latest ghost hunting kit. We have over 10 years' experience in paranormal research, and have the knowledge and experience in most areas of the paranormal. If you're just starting out or are looking for new ways to catch paranormal evidence feel free to get in touch and ask one of our friendly and knowledgeable ghost hunters. We love the paranormal, and have been paranormal investigators for over 10 years. And have been to hundreds of haunted locations across the UK, and have experience with most of the ghost hunting equipment out there. We know which ghost hunting gear works, and which doesn't, and we ensure all of our products are tried and tested before listing them on our website. There is nothing more thrilling than catching some great evidence, and we want to help our customers and the ghost hunting community find the answer they are looking for. We love the paranormal community and can talk for hours on the subject; we have seen many unexplainable occurrences and do believe in things we cannot see.

Brand Grade: Grade One
