Pratham Software (PSI) is a global IT solutions company that helps SMEs, Fortune 1000/500 Companies, Global ISV's. and market leaders propel through a successful digital transformation across businesses. We are a digitally smart workforce of 400+ employees nurtured by our 20+ years of domain expertise and technological prowess. We boast an average of 4+ years of client retention ratio across our international client base of industry leaders, spanning across seven geographies i.e. North America (USA & Canada), Europe (the UK, Germany, Nordics) Australasia (Australia, New Zealand) Asia. Pratham Software (PSI) is a trusted services provider across domains like S/W Product Engineering, BPM, Enterprise Application Development, Data Analytics, and BI. Our global processes are driven by ISO 9001:2015 & ISO 27001: 2013, with the progressive co-Partnering approach and an appetite to take risks and invest in client engagements. As a global operator in IT Services, we deeply believe in advancing through "capacity and capability building" that fuels our efficiency in managing a variable team size of 10 to 80 people with multiple project teams operating through different continents. We create an everlasting customer experience driven by flexibility & agility and delivering tangible, measurable results.
