Datawash is an Australian based innovative online database management solutions company which has been operating since 2005. We help to empower your business in order to know the accuracy of your computer database before direct marketing campaign, much quicker than it takes to finish your coffee. From your keyboard, access the Datawash portal including Australia Post's address validation, change of address, return to sender, left address flags, deceased flags, plus telephone number append, email address verification and advanced duplicate detection services. Receive free statistics audits instantaneously for every database checked for accuracy. There are no upfront costs and you only pay for those updated records

you decide to download.
