WELCOME TO TIMELESS LASER & SKIN CARE We are a holistic physician-run practice that has helped thousands of men and women look their best at any age using lasers, body contouring, aesthetic services, and carefully selected physician-grade skin care products. Dr. Christian also injects Botox, Xeomin and dermal fillers with an artistic eye and gentle technique. We believe that when it comes to appearance, nothing is as attractive as healthy skin, and skin health begins with whole body health. We listen attentively to each patient and provide individualized care plans to address his or her specific concerns.
