Image Analyser Ltd, Kestrel Court, Waterwells Drive
Quedgeley, Gloucester GL2 2AT
United Kingdom

Phone: 0870 041 1166

Image Analyzer provides artificial intelligence-based content moderation technology for image, video and streaming media, including live-streamed footage uploaded by users. Its technology helps organizations minimize their corporate legal risk exposure caused by employees or users abusing their digital platform access to share harmful visual material. Image Analyzer's technology has been designed to identify visual risks in milliseconds, including illegal content, and images and videos that are deemed harmful to users, especially children and vulnerable adults.
