Practical Mandarin is the top or biggest independent Chinese school in London. We provide Chinese language classes in small groups, private lessons, and corporate training to professional and companies. We are the only school to offer all levels of courses from Beginners to Advanced. Our students love coming to our classes. We focus on fluency training with our original books, games and videos. All of our students learn to speak Chinese much faster than learning on their own. We also organise cultural events throughout the year, including making dumplings or bubble tea, playing mahjong, kungfu or karaoke!
