Proactive Healthcare is a leading online retailer of health supplements and equipment, established in 1997 with a mission to help people attain better health through quality products and reliable information. This family-owned business is recognised for its customer service, reliability, and confidentiality, with a broad range of carefully selected products, including supplements, minerals, probiotics, and pain management solutions. They also offer air purification devices and alkaline water products, catering to a wide array of health needs. One key area of focus is their range of Pulsed Electromagnetic Field (PEMF) therapy devices, designed to stimulate the body's regeneration process and align with Earth's frequencies.With a

strong history rooted in personal health challenges, Proactive Healthcare is committed to providing solutions that supported their own journey to others. They place a strong emphasis on customer satisfaction with unique features such as a loyalty programme that rewards customers for their purchases, and a provision for practitioners to access high-quality products for their patients. Alongside, they offer fast global shipping and a 30-day money-back guarantee on their PEMF products. In essence, Proactive Healthcare is more than just an e-commerce store; it is a dedicated provider of health solutions, committed to helping individuals regain balance with the natural world through quality health supplements, equipment, and education.
