The Reserve was founded by Silver Bullion in response to the 2008 Financial Crisis, which saw an increasing need for safe and reliable gold storage in Singapore.

Boasting 180,000 sq ft of space for precious metals vault storage, The Reserve is the world's largest capacity vault. The facility also allows for other assets, such as fine art, luxury pieces, and digital assets to be secured, as well as designated spaces for premium meetings and events to take place. An appointment is required to visit our gold and silver vault in Singapore. Website: <https://thereserve.sg> Phone Number: +65 62433318
