For many years, Precision Products has been a leading manufacturer and supplier of piston rings and metallic seals. We supply our products to companies worldwide and each piston ring and metallic seal is made here in the UK. Specialising in the design, development, manufacturing and supplying of piston rings and metallic sealing rings, PPUK supplies an expert product and service to customers from different industries such as marine and industrial customers. We have a proven track record and extensive experience across a range of materials, product types, geometrical specifications and coating technologies. PPUK operates from our facility in

Chesterfield, UK, where we are able to offer world-class capabilities to provide a

thorough portfolio of service offerings to our customers. We are committed to quality by investing in continuous improvement within technology, research and development.
