Optimus Learning School is a renowned after-school program serving the communities of Brea, Fullerton, Placentia, and Yorba Linda. Since our establishment in 2008, we have been dedicated to assisting students from kindergarten through high school in reaching their academic milestones through a wide range of programs. These programs include our comprehensive after-school program, homeschooling support, homework assistance, and private tutoring services. In addition to our core offerings, we provide seasonal programs such as our highly sought-after summer camp. Throughout the year, we also offer a variety of enrichment classes encompassing subjects like coding, STEM, piano, art, Chinese,

and Korean. These enrichment courses are designed to foster creativity and contribute to the development of well-rounded students.
