

Solar Panel Bird Proofing Scotland

Angus Avenue
Bishopbriggs, Glasgow G64 1AH
United Kingdom

Solar Panel Bird & Pigeon Proofing Experts Collins Roofing & Solar Solutions are based in Bishopbriggs, Glasgow we supply, install and repair PV Solar Panels and all other aspects of Solar Work. Given our experience in the solar panel industry, we know that birds and in Glasgow especially pigeon nests can be a major problem. All solar panels we install are bird proof solar panels, if you have solar panels and have an issue with birds nests and you are based within 40 miles of Glasgow we can help. Our expert team can have any repairs, maintenance and bird proofing work completed the same day we arrive on the job. As long as suitable notice is provided, we are happy to install solar panel bird proofing anywhere in mainland Scotland. The solar panel bird proofing kit that we install is the best performing kit available in the industry today. Our solar edge kit is made from reinforced steel and completely prevents pigeons, small birds and pests from accessing underneath your solar panels. Unlike cheap imitations and other ineffective products, the solar edge bird
