Reading Heating Solutions is a highly reputable provider of boiler, plumbing, central heating, and gas services in Reading and the surrounding Berkshire and Thames Valley areas. Our team of certified specialists handles boiler installations, repairs, and annual servicing for brands like Baxi, Worcester Bosch, and Vaillant, addressing issues such as leaks, pressure loss, and hot water problems. Our company also excels in general plumbing services, tackling repairs, installations, and renovations, including fixing leaks, repairing showers, and resolving toilet issues. We offer specialised services like unvented cylinder installations, water hammer issue resolution, and plumbing system design, ensuring high-quality service.

response times for residential and commercial clients. In addition to their plumbing and boiler expertise, Reading Heating Solutions provides central heating and gas services. Our skilled team handles heating system installations, power flushing, radiator installations and repairs, and underfloor heating systems, emphasising energy-saving solutions and the installation of thermostatic valves and room thermostats. Our company employs gas-safe registered engineers who offer 24/7 emergency gas services, including boiler servicing, gas pipe installation, and gas leak repairs. With a strong focus on safety and customer satisfaction, Reading Heating Solutions ensures that all work is completed efficiently and professionally, making them a reliable choice for heating and gas services in the area.
