

PrimeHive Air Conditioning Ltd

Willow Tree Farm, Spalding Rd
Spalding, Lincolnshire PE12 7HP
United Kingdom

Phone: 07741 658203

Our air conditioning services are at the core of what we do. We tailor every installation to suit your needs, whether it's a home setup or a commercial project. From wall-mounted units to complex VRF systems, we handle it all with professionalism and care. We start with a detailed consultation, design a custom system, and install it with minimal disruption. Our clients trust us because we focus on both performance and efficiency, and we stay by your side long after installation with dedicated support and maintenance. We also strongly believe in harnessing renewable energy, so we offer expert solar panel solutions. By integrating solar into your property, you can take control of your energy use and significantly reduce your

electricity bills. We design and install systems that work seamlessly with our A/C units and battery storage options, creating a complete energy ecosystem built for the future. To complete the package, our battery energy storage systems help you get the most out of your solar power. With our custom-designed solutions, you can store excess energy during the day and use it when you need it most like at night or during outages. It's all about increasing your energy independence and giving you peace of mind. At PrimeHive PrimeHive Air Conditioning Ltd, we're not just installing systems we're powering a smarter, more sustainable lifestyle. Website: <https://primehive.co.uk/> Phone number: 07741 65820
