

Unit 11, Christmas Hill Business Park, Rycote Lane  
Thame, Oxfordshire OX9 2FZ  
United Kingdom

Phone: 01844 217270

Clearview Imaging supplies industrial vision systems, components and services that help computers see and inspect. Based in Thame, Oxfordshire with offices across Europe, the company stocks high-quality cameras, 3D and hyperspectral sensors, lenses, illumination and software. It supports manufacturers and integrators developing bespoke machine-vision systems and end users looking for complete, ready-to-use solutions. Clearview's engineers provide consultancy, training and feasibility studies to reduce project risk, drawing on deep experience in machine vision, automation and industrial imaging. The team's independent approach ensures customers receive impartial advice on the right hardware and software for

applications ranging from quality control and label verification to barcode reading, robotics and high-speed inspection. By combining leading-edge technology with practical expertise, Clearview delivers reliable vision systems that improve productivity, accuracy and traceability in manufacturing and logistics.
