MSE Environmental provides professional environmental testing and consulting services for commercial, residential, and industrial clients across Texas. Our certified team specializes in mold, asbestos, and lead testing, Phase I Environmental Site Assessments (ESAs), water damage consulting, and moisture mapping. We also provide Legionella water testing and comprehensive environmental compliance support. With fast turnaround times, precise reporting, and EPA- and OSHA-compliant methods, MSE Environmental helps property owners, restoration contractors, and developers protect assets and meet state regulations. Trusted across Dallas-Fort Worth, Austin, and surrounding regions. Website:
